A growing trend in the Kansas City Metro area in recent years is maintenance provided villa living. If you're not familiar with the term, it simply means homeowners can enjoy living in their own homes without many of the responsibilities some don't have time for or would prefer to have someone else take care of. Not everyone enjoys mowing the lawn, shoveling snow in the winter, or watering the flower beds during spring and summer seasons!

The fact is, buyers have varying lifestyles and needs whether they're 22 years old or part of the "baby boomer" generation. Young families who are just starting out often prefer smaller homes without sacrificing quality, design, and curb appeal, while young professionals who are career-oriented just don't have the time for a lot of up-keep or maintenance. This relatively new way of living helps the homeowner in different ways that are most suitable for their needs.

The Meadows at Greenfield is where you will find maintenance provided villa living in Kearney, MO which is just a stone's throw away from downtown Kansas City. Syler Construction is proud to offer an alternative way of living for those who desire this distinctive home life.

With 1,400 to 1,600 square feet of living space, depending on which of the three plans you choose, buyers can enjoy zero entry garages, 3-foot wide doorways throughout the main level, lake and prairie views, an optional finished basement, and more. Starting in the lower \$300K range, maintenance provided villas make it possible for buyers, regardless of age, to enjoy all of the benefits of owning a home with none of the hassle. Quality workmanship and attention to detail ensure you will enjoy the home you are coming home to. This is a home that you will appreciate more and more as each year passes because you won't have to deal with maintenance issues as most homeowners do.

Today, millennials, young families, empty-nester's and baby boomers are all looking for a simpler lifestyle that makes it possible to enjoy gorgeous homes and amenities without the time, effort, and hassles of up-keep. At The Meadows of Greenfield, what you experience is exceptional living and complete freedom, an enhanced lifestyle that simply makes living in a beautiful, upscale community easier and stress-free.

To learn more, we invite you to contact The Clemons Home Team, today at 816-410-7676.
